Determination of Financial Assistance Eligibility – Generally, patients are eligible for financial assistance based on their income level and assets as determined by Federal Poverty Guidelines (FPG) and the patient’s ability to pay. Eligible patients will not be charged more for emergency or other medically-necessary care than patients who have insurance. CVMC determines amounts generally billed based on all CVMC claims processed by Medicare and private health insurers over the past fiscal year. Patients have 240 days after the first bill to submit an Application for Financial Assistance. If collections are already underway when the application is received, we will stop collection efforts while a patient’s application is processed. If an individual has sufficient insurance coverage or assets available to pay for care, he/she may be deemed ineligible for financial assistance. Please refer to the full policy for a complete explanation and details.
